Oh my god I think I'm blind  
I've found one color won't suffice  
You promised, sleep tonight

Call it a whisper that comes from  
The distance  
To protect all your children  
One more, one more, one more minute  
To fight off the bad guy...

Now go to sleep  
Nightmares make these scars  
A stomachs bloody hole  
Sinking quicksand eyes  
Makes for heavy sight

It's painless, it's painless to float above the earth  
Like this

Tie me to a chair, subconsciously  
Surrendering  
Now that I'm awake, it's hard for me to make believe

Blood between the sheets  
Insomniatic meat oh - I can't shut my eyes  
Void of nightmares, leading upstairs  
Do you follow? - I can't shut my eyes

Tie me to a chair, subconsciously,  
Surrendering  
Now that I'm awake  
It's hard for me to make believe

This is the worst thing that you have ever done (8x)
