English people you should never trust them
Cos they like to have sex while their on their rags
One time I was at murry creek,
Just getting drunk at the park with some hot chicks
But here was the little thing
When one of them looked at me
We were ready and waiting
Sexy times coming
She was english
You should never eat an english breakfast ever,
It could be really bad for your health
Don't go out with english people ever
Cos they like to have sex on their rags
It's kind of really yack
And it makes you go on the floor
And the franer will just fall right off it
You will just want to die
Die
The english people should die
Their really yacky
And really ugly
And real disgusting
