Fill me up with nitro and set me alight,  
im going out the window and out of sight (out of sight)

take the to the moon  
i wanna see the stars shining brightly over here

am i stoned or is this reality  
set me up like a firework  
gonna explode on your face  
oh yeah

take the to the moon

i wanna see the stars shining brightly over here

i said take the to the moon  
i wanna see the stars shining ever so brightly over here  
over there and everywhere  
ohhhhh

take the to the moon  
i wanna see the stars shining brightly over here

take me to the moon
