"I Miss You"

Can't you see
That I wanna be
Here with open arms
It's empty tonight
And I'm all alone
Get me through this one

Do you notice I'm gone
Where do you run to so far away
I want you to know that
I miss you, I miss you so
I want you to know that
I miss you, I miss you so (2x)

I'm writing again, these letters to you
Aren't much I know
But I'm not sleeping
But you're not here
The thought stops my heart

Do you notice I'm gone
Where do you run to so far away
I want you to know that
I miss you, I miss you so (4x)

No more looking, I found her

I want you to know that
I miss you, I miss you so (6x)

So far away (2x)
