never thought that you would be the meaner one of the  
two  
i never thought that you would have me saying no way  
never thought that you could be so mean and stupid its  
true  
i never thought that you would have me saying go away  
straight up its 3 in the morning yeah yeah yeah  
thats how im gunna start my stupid little story yeah  
yeah yeah  
so many times i took advice from you  
never thought of what i couldve been anyway  
so many times i tripped and fell right through  
never thought of what i couldve been anyway  
but my memories of you  
never thought you'd come running back  
but you did just not the way that i wanted you  
never thought that you would be the meaner one of the  
two  
i never thought that you would have me saying no way  
never thought that you could be so mean and stupid its  
true  
i never thought that you would have me saying go away  
and now that im going to ignore you yeah yeah yeah i  
think backto the times i must've bored you yeah yeah  
yeah  
so many times i picked you up at night  
and tried to get you in the car without a fight  
so many times i tripped and fell right through  
never thought of what i couldve been anyway  
but my memories of you  
never thought you'd come running back  
but you did just not the way that i wanted you  
never thought that you would be the meaner one of the  
two  
i never thought that you would have me saying no way  
never thought that you could be so mean and stupid its  
true  
i never thought that you would have me saying go  
away(x2)  
never thought that you would be the meaner one of the  
two

i never thought that you would have me saying no way  
never thought that you could be so mean and stupid its  
true  
i never thought that you would have me saying go away
