it's friaday night, i'm on my way to a friends house
there we're meet and have a good time
on our skate broads

ho! we're gone
were in a dream
of relality
tonight we have to get out

where out, we are on are away to the skate park
it's dark, we might get hit
we might die,we might fly
we don't know
'cause were back in relaity
anything can happaned
tonight
so be free and do what in your heart that's the alone
way to fly
on a skate broad
