Human flesh
Open earth
Prepare your burial, burial, burial
Prepare your burial, burial, burial
This body cold and contagious, This body cold and
contagious,
This body cold and contagious, This body cold and
contagious,
This body cold and contagious, This body cold and
contagious, This body cold and contagious
Buried with your face down
You scream without sound
Broken bones won't heal you
Sympathy turns to laughter, laughter, laughter
(prick your fingers and bleed, give the poison to me)
Unearthed hands of solitude
All over me
Torn apart by this cold self incision
So let it bleed, let it bleed, let it bleed
Burial, burial, burial, burial
Prepare your burial, burial, burial

This body cold and contagious, This body cold and
contagious
This body cold and contagious, This body cold and
contagious
