Maybe Iâ€™m wrong, amputate sympathy  
Strength of my tongue, its taken that liberty,  
How do I feel? a glorified refugee,  
Nobody ever says goodbye, but I donâ€™t mind  
Just come home, Come home

Play it by ear, play devils advocate  
Never I fear, pay for it afterwards  
How do I feel? A glorified refugee

Nobody ever says goodbye, but I donâ€™t mind  
Just come home, come home  
Come Home, do I want it, please come home  
do I need it, please come home  
do I want it, please come home  
Come on home, Come home  
Come home  
Come home  
Come home
