There must be a song
That i can sing to you to make you fall asleep
You got the blues
Don't want to be a line from yesterday's news
You shouldn't think, i'm not being deep, you shouldn't
think
You ain't happy cause for a long time
Happy wasn't how you wanted to spend your life
You ain't happy cause it's a long ride home tonight
There must be a place
Where we can go and waste our precious days away
And it's ok, there's never been a time quite like today
You shouldn't think, i'm not being deep, you shouldn't
think
You ain't happy cause for a long time
Happy wasn't how you wanted to spend your life
You ain't happy cause it's a long ride home tonight
