Visit "[Drag You Down](#)" on [MotoLyrics.com](https://MotoLyrics.com)

It's biting, it's teething, it's biting, I'm bleeding  
It's calling, it's crawling, it's calling and I'm falling

The perfect sound of middle ground  
Pull me under before I try to drag you down  
Someone has to pull me under before I try and drag  
you  
Drag you, drag you down

They're fighting, they're growing  
They're fighting and they're growing  
I'm biting, I'm teething, I'm biting, they're bleeding  
The perfect sound of middle ground  
Pull me under before I try to drag you down  
Someone has to pull me under before I try to drag you  
Drag you, drag you down

Biting and teething and bleeding

Pull me under before I try to drag you down  
Someone has to pull me under before I try to drag you  
down  
Someone has to pull me under before I try to drag you  
down  
Someone has to pull me under before I try to drag you  
Drag you, drag you down
