A new day starts in my room
So sunny it won't let me assume
That something would go wrong today
And I'd never notice before I'll have to say
Today was the worst of my life
The itch in my eyes
The sound of your sighs

Like a movie scene
But not as clean
I'm the hero and you're the heroine
A start from zero and soon you'll join

I've got my fingers crossed
Tomorrow would be better
Because I'm always lost
I'm laid down on my bed
Looking back at what you've said
And what makes me so normal?
What makes you, what makes you so special?

Like a movie scene
But not as clean
I'm the hero and you're the heroine
A start from zero and soon you'll join

I've got my fingers crossed
Tomorrow would be better
Because I'm always lost
I'm laid down on my bed
Looking back at what you've said
And what makes me so normal?
What makes you, what makes you so special?

What makes me so normal?
What makes you so special?
