(Hey! Hey! Hey! Hey!)

I want to hear your voice  
For the last time before this ends  
And there's no more choice  
But all these messages to send

I was running around at a grass field  
I felt free  
With no more secrets left to be revealed  
And I would have been  
Listening to you

I want to hear your voice (Hear your voice)  
One more time  
And there's nothing else for a choice  
But all these messages and lines

I was looking up and running around  
Like I'm done  
Things were coming along, and not anymore down  
Unless you're gone  
The only one

And come across all these troubles  
And put a cross on everything you hate  
And running away from what you fear  
And screaming so loud what's in my mind

I want to hear you voice (Hear your voice)  
So much left to say  
So much more messages

(Hey! Hey! Hey! Hey!)
