Now things are repeating every day  
Just like a broken tape  
I'm lost but I haven't quite given up (Given up)  
And you're looking 180 degrees away  
There's no where to escape

The nights grow long  
Where's the sun?  
Don't know where I belong  
But I won't let time just move along (Move along)

When you say we're done  
I'll always say that you're wrong  
When this light starts to disappear  
I'll say it's just not clear  
And it's not over yet, yeah  
It's not over yet  
It's not over  
It's not over yet  
Even if it is for you

Now let me guess what you'll say  
"You're the one I hate"  
I'm finding you but I don't need any maps  
I'll just see if you'd still look away  
But you know it's not too late?

I'm not the only one  
I'm never done  
Don't know where I belong  
I won't let time just go wrong (Go wrong)

When you say we're done  
I'll always say that you're wrong  
When this light starts to disappear  
I'll say it's just not clear  
And it's not over yet, yeah  
It's not over yet  
It's not over  
It's not over yet  
Even if it is for you

It's not to cry not to believe  
It's not to lie it's not to be deceived  
I'm not always right  
It's not always the light that you could conceive  
But listen and trust me  
Believe this could be  
Something different for once  
You're the one  
With a special touch  
You're the one  
With a special touch

When you say we're done  
I'll always say that you're wrong  
When this light starts to disappear  
I'll say it's just not clear  
And it's not over yet, yeah  
It's not over yet  
It's not over  
It's not over yet

When you say we're done  
I'll always say that you're wrong  
When this light starts to disappear  
I'll say it's just not clear  
And it's not over yet, yeah  
It's not over yet  
It's not over  
It's not over yet

When you say we're done  
I'll always say that you're wrong  
When this light starts to disappear  
I'll say it's just not clear  
And it's not over yet, yeah  
It's not over yet  
It's not over  
It's not over yet  
Even if it is for you

Look into my eyes  
Take a deep breath  
There's no more lies  
This is true, this is you  
Then close your eyes  
Because it's not over
