"Ray of Sunshine"

The spring has arrived
I feel so alive
Now we can dance and smile
These flowers would bloom for a while
Atleast sometime for us

Close your eyes
I promise you
No more hopeless sighs
The year is new
With me, with you

When the summer reaches
Coming to the beaches
Now we can live and smile
The sun would stay for a while
Atleast sometime for us

Close your eyes
I promise you
No more hopeless sighs
The life is new
The life is new
