Sometimes I need to hold back  
All these feelings from coming up  
Sometimes I need to stay back  
From all the things that make me smile  
You're smiling at me, oh

And at the speed of light  
Everything kindles up my feeling  
And nothing seems as right  
As when my words have a meaning  
You're smiling at me

There's times I need to try hard  
To keep up everything as it is now  
There's times I need to have regard  
Of things that could happen somehow  
You're right next to me, oh

And when it exceeds a point  
Where the word "lonely" doesn't exist  
I get that I am living  
I get that I am living

And at the speed of light  
Everything kindles up my feeling  
And nothing seems as right  
As when my words have a meaning  
You're next to me

And at the speed of light  
Everything kindles up my feeling  
And nothing seems as right  
As when my words have a meaning  
You're with me

Nothing was ever as right  
And at the speed of light  
I know I want to keep you tight
