"For Mankind"

History hides the Aryan glory
But we must discern what's wrong and what's right
We have to expose those who tell the story
That jews are higher and we are lower
To keep liars quiet we have to fight

For the end of degradation
For the freedom of our mind
For the purity of nation
For the future of mankind

The bible narrates about holy black sheeps

And millions of men believe that it's true
But no-one recalls the Aryan heroes
Of past generations
Who fought the oppression
Who purified nation
For me and for you

For our forests and our mountains
For our rivers and our seas
We shall fight until our land again
Will be pure and will be free
