Biscuits for breakfast, cup of tea for the man  
4 more years of this shit and i'll be on 16 grand  
pushing the trolley, doing the rounds  
4 more years of this shit and i'll be one of these clowns

in my office  
on the fifth floor  
biscuits for breakfast  
biscuits for breakfast

biscuits for breakfast, cup of tea for the man  
4 years on in this game and i'm on 16 grand  
i want chocolate, gimme some cake  
gimme so much more than i think i can take

in my office  
on the fifth floor  
biscuits for breakfast

biscuits for breakfast

over a barrel, or over my trolley  
over the desk it's all the same  
pushing the message don't hate the player hate the  
game  
s'all the same

in my office  
on the fifth floor  
i can see the world go round beneath me  
biscuits for breakfast  
i can see my world pan out before me

i can see my world pan out before me  
i can see my world pan out before me  
i can see my world pan out before me  
i can see my world pan out before me
