"Pigtails"

One too many
Early in the DJ booth
Really make your head spin

Find a place on a stair
In a a drawer in the attic
Take it all in

Must be the pigtails on your shoulder
Like she wore for me

One too many
Early at the back door
Gonna get your head twisted

Run back inside
In the noise and lights think on it
And how much I missed it

Must be the pigtails on your shoulder
Like she wore for me

Must be the light shinning down from the glitter board
Must be the night winding down from the alcohol

Must be pigtails
