"Six Weeks"

So much changes
And I know this in ages
Now I've been busy
Killing time, yeah

And they ask my brothers
How long have I got
Now it's out there
On the clock
Now she said it
Killing time, yeah

So much changes
In a single word
So much changes
In a single word

And girlfriends have spoken
Six weeks before a spell is broken
Just make sure you mean it when you say it
In six weeks time

So much changes
In a single word
So much changes
In a single word, yeah

Say what you want
Say what you want
So much changes
Say what you want
Say what you want
So much changes
