So long, so long, long time blue babe

she had long fingers, and a long caress
she had long toes that wiggled when we get undressed
long time lovin, long time love
i got the long time blues coz i can't get enough

long time blue babe
long time blue babe
long time blue
i got it bad, but i got it good
with you i got it every way that a young man should
long time loving long time love
long time before me and you had enough

long time blue babe
long time blue babe
long time blue

so long
