"So Many Roads"

Visit "[So Many Roads](#)" on MotoLyrics.com

I know it happened so fast
These things test us baby
Distance and time and
So many roads to take

I know bad things happen to
Good people like them and us
Distance and time are no protection from bad luck

So many roads
So many crossroads

I know I'm leaving early

These things test us baby
Distance and time and so many moves to make

So many roads
So many crossroads

I tried to stop the fire spreading from
Under my feet to under our bed
Distance and time are no protection from
The rules we break
