

Finley Quaye "Everybody Knows"

Visit "[Everybody Knows](#)" on MotoLyrics.com

There's a shark looking for food
I see manners in the sky
I will tell you what it's all about
I will show you what it's all about

Everybody knows shapes
Everybody knows music

On the face of the future
Through the window in my mind
Through the mirror in my mind
I see signs of the times

Everybody knows shapes
Everybody knows music

There is something in us
That will live forever
I see children dying
Moon runs the sea
The sun inspires we you and me

Everybody knows shapes
Everybody knows music

There's a monkey in the tree
I see vampire in the sky
(bleeding the youth them dry)
I will tell you what it's all about
I will show you what it's all about

Everybody knows shapes
Everybody knows music
