Bet your life, bet your death
Now you bet your, now you bet your
Now you're better off dead

Kiss it, kiss it, kiss it on all goodbye
Kiss it, kiss it, kiss it on all goodbye

So blind you don't even know it
Can't make no sense out of hoping
Emotion can't even show it

Don't even know where you're going

Waste your life, waste your mind
Now you waste my, now you waste my,
Now you're wasting my time

Lost, now you know it
Lost, now you know it
Don't even know where you're going
[CHORUS]
