I believe I can love  
You give me your loving care  
I believe in what we are  
I don't know where I would be  
Without you staying with me  
Sometimes, I'm lost in misery  
You will take me all the way, I'm not afraid  
Oh, you and me, hand in hand  
To everywhere amazing  
Be my friend, oh friend  
We are forever friends  
Oh baby, you give me all the love I need  
You are the only one  
I believe I can love  
You give me your loving care  
I believe in what we are  
You will take me all the way, as day by day  
Oh, you and me, hand in hand  
To everywhere amazing  
Be my friend, oh friend  
We are forever friends  
Oh baby, you give me all the love I need  
You are the only one  
music  
You will take me all the way, as day by day  
Oh, you and me, hand in hand  
To everywhere amazing  
Be my friend, oh friend  
We are forever friends  
Oh baby, you give me all the love I need  
You are the only one
