I lost my way home  
Looking at myself  
Searching for nothing  
I knew all along where I belong  
Everyday I stand in the light  
I can take the stage  
But You are the one  
You give me the love

You know what You are  
You're the star of the show  
'cause you are the one  
I cannot breathe in, without a reason  
You're the star (3x)

I'm coming home now  
Closer to you  
You show me the way  
You turn me into  
Something that's new

You know what You are  
You're the star of the show  
'cause you are the one  
I cannot breathe in, without a reason  
You're the star (3x)

I thought that I knew You  
But I was only pushing You away  
Now I can hear you  
I'll listen to every word you say

You know what You are  
You're the star of the show  
'cause you are the one  
I cannot breathe in, without a reason  
You're the star (3x)  
(2x)
