How many words are there to say?
But I still can't find a way
To tell You how You've captured me
And turned it all around

I want to write it down
I need to say it out loud
This voice inside is driving me
And I can't hold it in

I know you're the only one
Who can help me finally open up
You've created something new in me

You give me that feeling
A power I can believe in
The world around me disappears
(I'm the one completely changed)

You give me that feeling
I can smash straight through the ceiling
Fly until I reach the sun
([Incomprehensible])
You give me that feeling

Your light it shines so bright
It makes the day seem like night
You chase away the shadows
Illuminate my path

I know you're the only one
Who can help me finally open up
You've created something new in me

You give me that feeling
A power I can believe in
The world around me disappears
(I'm the one completely changed)

You give me that feeling
I can smash straight through the ceiling
Fly until I reach the sun

([Incomprehensible])
You give me that feeling

I always thought if someone knew the real me
They would turn away
But now I've found Your love completes me
And I'll never be the same

You give me that feeling
A power I can believe in
The world around me disappears
(I'm the one completely changed)

You give me that feeling
I can smash straight through the ceiling
Fly until I reach the sun
([Incomprehensible])
You give me that feeling
