face down tonight i dont where i am i am
searching for some kind of reason why im the one
you'd
believe in but if you count me out you will never find
what it feels like to love you like I can
do you wanna know where i stand ill stand next to you
let me be your man
do you wanna know where i stand ill stand next to you
wont you try to understand let me be your man
let me be your man
pick up where we left off things changed and i messed
up hang your hopes on something strong let me show
you how
what i was isnt who i am let me help you try to
understand
take a moment to decide if you wanted me to hide
what it feels like to love you like I can
do you wanna know where i stand i stand next to you let
me be your man
do you wanna know where i stand i stand next to you
wont you try to understand let me be your man
youll be the one that shines on and ill be the one
you rely on ill stand next to you let me be your man
let me be your man just let me be your man
do you wanna know where i stand i stand next to you let
me be your man
do you wanna know where i stand i stand next to you
wont you try to understand let me be your man let me
be your man let me be your man
