There used to be a time when I would call and you'd be there
Now your leaving's killing me and the time we spent together
Why can't we tape the picture that is scattered on the floor
I guess there's just no love here anymore

Chorus:

I can't hide from my emotions
Stop old dreams and crush my fears and turn away forever
I'll get by without you now so leave me alone
You won't be there tomorrow
Your love is like an arrow through my heart

I tried everything I could to hold onto that life
But now I see I realized I wasn't always right

I'll take the good and leave the bad and walk out of the door
I guess there's just no love here anymore

Bridge:

With all the tears I cried I should have drowned out all the pain
I'll never go back, never cry, I've got too much to gain

Solo

Chorus
