enough today

too long silent

please send a feeling

think me a thought

gone too far again

to no surprise (no surprise of mine)

direct stellar contact

wait for dark (waiting for dark)

hear me! hear me!

I sometimes know

it felt so near

don't close sad eyes

choose any memory

gone too far again

to no surprise (no surprise of mine)

direct stellar contact

wait for dark (waiting for dark)

hear me! hear me! hear me! hear me
