What's your purpose for me
With your
Intentions in the air
So what if i wanted to
Ask you
If I could meet you there

Go inside
I'm coming through
For you
I could not be more
Gone

We watched eachother escape
From the
Commotion that we knew
The way our languages fade
In through
An empty living room

Go inside I'm coming through
Into a world that you surround
Show me now im here with you
For you
I could not be more
Gone

Go inside
I'm coming through
Into a world that you surround
Show me now
I'm here with you
For you
For you
For you
I could not be more gone....
