### "The Stars Are On Our Side"

Visit "[The Stars Are On Our Side](#)" on MotoLyrics.com

I can't help of dreaming  
Every time I hear your name  
And there's no point in waiting  
If you feel the same

Could this be true?  
'Cause it feels so strong and right  
All I want is you  
We'll make it through the night  
Everything is so fine  
I'm gonna make you mine  
The stars are on our side  
The stars are on our side

You make my day that is true  
I fall in love with your smile everyday  
And every hour without you feels like a week or two,  
But you're here today

Could this be true...

You and me  
Let's chase the setting sun 'til the dawn  
Our life has just begun

Could this be true...
