They feed you lies and bring you pain
Your life sucked from your veins
Clever disguise falling from grace
And now the sinners marching on

Inside my mind
War like thoughts
Are taking over me

See our generation storm the burning heart
No more places in the hull
We're all about to fall
Empty memories are shattering our dreams
Can you recall?

Pledge your allegiance
Pledge your allegiance

You hate them yet you won't betray
The wars you fight aren't yours
The path of no return you take
Until you lose control

Inside my mind
War like thoughts
Are taking over me

See our generation storm the burning heart
No more places in the hull
We're all about to fall
Empty memories are shattering our dreams
Can you recall?

See our generation storm the burning heart
No more places in the hull
We're all about to fall
Empty memories are shattering our dreams
Can you recall?

See our generation storm the burning heart
No more places in the hull

We're all about to fall
Empty memories are shattering our dreams
Can you recall?
