Well if I was a satellite
I'd watch you when you sleep
And if I was an undertow
I'd drag you to the deep
And if I was a prison
I would hide you in my walls
And if I was an angel
I would catch you when you fall

It's such a cold day
Down here in hell
And it's a long way
Long way to heaven
But it's okay
'Cause we're singing with the angels

It's such a cold day
Down here in hell
And it's a long way
Up there to heaven
But it's okay
'Cause we're singing with the angels

And I will give you everything I have
If I had anything at all

And if I was a memory
I'd creep into your mind
And if I was a tourniquet
I'd never let you die

It's such a cold day
Down here in hell
And it's a long way
Long way to heaven
But it's okay
'Cause we're singing with the angels

And it's such a cold day
Down here in hell
And it's a long way
Up there to heaven

But it's okay
'Cause we're singing with the angels

And I would give you everything I had
If I had anything at all

Anything at all

It's such a cold day
Down here in hell
And it's a long way
Long way to heaven
But it's okay
'Cause we're singing with the angels

Anything at all

And it's such a cold day
Down here in hell
And it's a long way
Up there to heaven
But it's okay cause we're singing with the angels

Anything at all

It's such a cold day
Down here in hell
And it's a long way
Long way to heaven
But it's okay
'Cause we're singing with the angels

Anything at all

If I was a hurricane
I'd blow your world apart

All over the world
Winners are cheating
Losers are weeping
Take anything at all

All over the world
Lovers are killing
Suckers are willing
Anything at all
