Together, by The Firm  
Now that I'm a man, I  
Understand I need someone to share  
This wonderland together

A woman and a man should  
Find romance  
So come on take my hand  
We'll learn to dance together

Living in dreams  
Making them real  
Know what it means when they say  
Now that I'm a man, I  
I understand a woman needs a man  
To share this life together

Living in dreams  
Making them real  
Know how it feels when they say  
Yesterday - shadows on my mind  
Yesterday - love so hard to find  
Now today - giving me the sign  
Telling me just what you need  
(solo)  
Living in dreams  
Making them real  
Know how it feels when they say  
Yesterday - shadows on my mind  
Yesterday - love so hard to find  
Now today - you're giving me the sign  
Oh you're telling me  
Just what you need
