Nas:

woke y'all up early this morning, but shit is real, I  
needed all  
Yeah, I'd like to welcome everybody that came. I know  
that I  
y'all to come down, so we can talk about these things  
that's  
going on man. It's gettin real.

Wizard:

Escobar repertoire that's my man  
Blowin up, how we expand  
Claimin that you illa than me, now how's that  
Stack grands up pack fans up with wild cats  
Bustin live gats  
Now we livin large reminiscin and flippin on prison  
guards  
In the bridge hangin with the thugs menaces  
Images of mad loot and being citizens  
Jumpin in and out of different cars  
On a weekly Benz or Mitsubishi  
Satellite dish, 50 inch with the Knicks on  
Got the flip phone in the swift zone  
See it in life, bitch get it right  
Real arm, bustin out this hustlin game with the name  
Everyday it's real in my life, we live in sitcoms  
Scorecedes, cap low, black mercedes  
Miami in back with the crack, the late 80's  
Brown timbs and thousands  
Now we on to some real dough  
How does it feel to count a mil  
Throw a party and show love to the same cats  
What you bum  
after your stacks who throw slugs
