There was a time that I would fret  
About the time that lies ahead  
Until the time my Savior said  
You are mine, never forget - so

Chorus

Why should I worry if it shines or rains  
I'm safe and warm under His wing  
I'm in no hurry for an earthly king  
I'm forever in His care

Troubles come and troubles go  
Can't change a thing by worrying so  
I'm kissing goodbye to all my worldly woes  
I'm forever in His care

He robes the meadow in flowers bright  
He sees the sparrow fall  
And though he leads me through the darkest night  
I'm sheltered in His wings  
Protected through it all, so

Why should I worry if it shines or rains  
I'm forever in His care

Repeat Chorus
