

First Degree **"Easy Way"**

Visit "[Easy Way](#)" on MotoLyrics.com

You acclaim the beauty of the morning
Singing in the rain
Say how you do
You got the easy way, everyday
You glide through your life
You're delight, your smile is like the ocean
Briny wind is on your side
Say how you do
You never got a doubt, decry about
No fears 'bout your fate

You don't turn your head just sail away
You never mind and make your day

You're afraid, nothing's gonna stop you
Nobody got's to hate
Say how you do
You never getting hopeless or helpless
No trash on your mind
It's a shame you never saw the hungry children
You didn't realize the pain
Say how you do
Your heaven gots no clouds no doubts
You don't think about
