When you talk, yeah, when
You talk like that I get
Scared. You're superficial and
One can tell that you don't
Care.
Didn't we grow up together,
Now didn't we Heather?
Are you from a dream a didn't want
Heather, do you like the weather
Now do you Heather
The world flew by
And you tried to grab it
When I flew by
You tried to stab me
Didn't we grow up together,
Now didn't we Heather?
Are you from a dream a didn't want
Heather, do you like the weather
Now do you Heather
