"There Is Hope"

Visit "[There Is Hope](#)" on MotoLyrics.com

There is hope when you have messages
On your answermachine.
There is hope when you hear a knock on
Your door at night
And you're not expecting anyone.
Hope when the plane
You're in is going up instead of down.
Hope when you fall
From a cliff and wake up and it was
Just a dream.
So don't let the bastards bring you down!
There is hope
When the hedgehog doesn't get hit by cars,
On his way across the roads.
There is hope when music still souches your soul,
Oh yeah, and gives you
Strenght, yeah, to carry on. Hope when people don't
Take it no more and
Go out (you go out) out in the street and demonstrate,
Hope in this song I
Sing well, there is hope in almost everything.
Don't let the bastards
Bring you down! Don't let the passed bring you down!
I've been so down
Now baby, but I'm coming up, up to see some sights,
There is hope,
There gotta be some hope
