It's the taste of the unexpected
Surprise flavors that enhance your perspective
A lovely tease of what's to come
Something that you've never known

Amuse bouche

It may be strange and a little bit frightening
An awkward taste but very enlightening
A hint of this and a drop of that
Lick your lips and don't look back

Amuse bouche

Don't look back, don't look
Don't look back, don't look
Don't look back, don't look

Don't look back, don't look
Don't look back, don't look
Don't look back, don't look
