"No Right"

Visit "[No Right](#)" on MotoLyrics.com

You have a right to be here tonight.
You have a right to get drunk out of spite.
You have a right to do anything you like
but no right... no right to say that you love me.

You have a right to look bored tonight
You have a right to talk to anyone you like
You have a right to want to be out of your sight.
but no right... no right to say that you love me.
noooooooooo right to say that you love me.

You have a right to be cold tonight.
You have a right to force me to fight.
You have a right to keep everything polite.
but no right... no right to say that you love me.
No right... to say that you love me... to say that you love
me...
to say that you love me... to say that you love me...to
say that you're mine.
