"Still In Flames"

Visit "[Still In Flames](#)" on MotoLyrics.com

I've seen your love
I've seen your love before
But it doesn't mean much
It's not worth fighting for
I've felt you touch
And I've felt those hands
But it doesn't mean much
I think you understand
And life goes on
I'm still in flames
I'm still in flames from you
And though you soaked me through
I'm still burning
I've been confused
I'll be confused again
But it doesn't mean much
It's only now and then

And life goes on
I'm still in flames
I'm still in flames from you
And though you soaked me through
I'm still burning
I've been waiting all my life for the truth to show
I've been waiting all my life for the truth...
I know...
I'm still in flames
I'm still in flames
I'm still in flames from you
And though you soaked me through
I'm still burning
