You know what a
Let me not do this right now

Sawing, with my jaw tooth down
Guarded, down upside frown

I'm, I'm looking for a pill
Something to ease my will
A kick in the teeth
You, you may not realize
When it's done or why

But it may be the best thing
It may be the best thing
Oh and it may be the best thing

Pulsing, with a familiar pain
A comfort, or from this disdain, grind away
I'm, I'm looking for a thrill
Something to ease my will
You, you may not realize
When it's done or why

I'm, I'm looking for a thrill
Something to ease my will
You, you may not realize
When it does or why

But it may be the best thing
It may be the best thing
Oh and it may be the best thing
And it may be the best thing
And may be the best thing

Oh and it may be the best thing
Oh and it may be the best thing
Oh and it may be the best thing
