If you're like me you've tried everything  
You're probably thinking to yourself

And like you, I'm skeptical  
Gave it a shot and so let me tell you

You're probably asking me  
Is there nothing to lose and everything to gain?  
Everything to gain, everything to gain  
I guarantee my pledge to you  
It was the best choice I've ever made

You're probably asking me  
Is there nothing to lose and everything to gain?  
Everything to gain, everything to gain

I know, I know  
I know how you feel, I know  
I know, I know everything to gain  
Everything to gain, everything to gain
