(Fischer/Spooner/Byrne/Johnson)

Do I like to have confusion?

Yes I do

Am I, am I in any danger?

Yes I am

Do I like what's happening?

Yes I do

And can I deal with it directly?

Yes I can

I take the trouble, I take the time

I get the feeling that I'm doing what's right

I may be reckless, maybe a fool

But I get excited when I get confused

Will I have to start all over?

Yes I will

Had I the right to make those statements?

Yes I had

Shall I meet with opposition?

Did I justify my actions?

Have I forgotten what the question was?

Yes I have

I take the trouble, I take the time

I get the feeling that I'm doing what's right

I may be reckless, maybe a fool

But I get excited when I get confused

Have I forgotten what the question was?

When I, when I, when I get confused.
