--- "Whiplash" Taken from the Fish Single "A  
Gentleman's Excuse Me" ---  
Hang a left, turn a right, we're driving through the  
night  
We're on the road with Fred  
Any time, anywhere, we'll be sure to get you there  
That's the road with Fred  
With his foot right to the floor, there's a corner coming  
on,  
Whiplash!  
He'll overtake anywhere, he doesn't really care  
That's the road with Fred  
Through rain, and snow, and fog, you sit and pray to  
God  
And place your faith in Fred  
You've got to close your eyes, so you'll never get  
surprised  
By whiplash!  
(a bridge)  
Chew your nails right to the bone, you're on the wrong  
side of the road

On the right side of Fred  
A collision coming on, you pray the brakes are gonna  
hold  
On the road with Fred  
A nut is loose behind the wheel, hear that rubber  
squeal  
For whiplash!  
Hang a left, turn a right, driving through the night  
On the road with Fred  
Any time any where, We'll be sure to get you there  
On the road with Fred  
He's got a mobile telephone, but you pray that no one  
comes  
For whiplash.
