Are you getting tired of all the ravages of war?
Aren't you even sure what the hell you're fighting for?
All the broken dreams of men just break me down to
pray
For peace and understanding, we just can't go on this
way

All together free
All together free united
All humanity
All together free united

Give it up
Give it up
Give it up
Give it up

All the lies are broken all the truth is still the same
All the love and hatred in a world that lives in pain
Will we see the winds of time erode this curse away
[Incomprehensible], we just can't go on this way

All together free
All together free united
All humanity
All together free united

Give it up
Give it up
Give it up
Give it up

We live for Mother Country but we live for Mother Need
We're looking for the other side but we're here to burn
and bleed
We all know the righteous, the truth shall lead the way
But we all know the darkness so believe me when I say

All together free
All together free united
Every nation free
All together free united

Give it up
Give it up
Give it up
Give it up

All together free
All together free united
All together, all together, all together

All together free
All together free united
All together, all together free

Give it up
Give it up
Give it up
Give it up

Give it up
Give it up
Give it up
Give it up
All together free
