Language is on fire that are launched, start here
The warning of the word goes out to all the
above all the below and all who have been cast aside
For everyone who is re-energized, criticized or
disguised. From the roof of the powerhouses to the
ground floor of your soul.
To all who can fathom a subsidiary atmosphere
And to all who can listen to the sound of cyber fear
Chim Chim's Badass Revenge...
Equals the imaginative mind that enables us
to resist the strategies of containment brought on
to us by political thunder whores from on high
It's the coming of the digital freak swing Vs.
ape kills master. If you try you will catch on...
Inhospitable cellular chain gangs and the slaves
speak of consumerism.
And in the monsters of plastic that await
behind the hidden corners of the new hype
Chim Chim's Badass Revenge...

The surrender of our dignities and the disintegrate
of the Wamo Frisbee within us all of the side effects of
the emerging techno psychology.
The pulse button landscape of the coming millennia
and it intellectual discriminations can't be avoided,
they can only be down graded repudiated and
afthroplacentrally renovated.
The history distorting legislative heartbeat of the
coming century
Aligns itself with weakness and over indulgence
Chim Chim's Badass Revenge suggests that you
structure your acceptance of the frequencies
according to hope and man and a kick ass outlook
If you try you will catch on.
The reinvention accelerates from this point
For it is with these words and the spirit of
Chim Chim's Badass theory of religiosity that we bring
you the only antidote that humanity will ever know
FISHBONE.
