You're everything that I could dream  
Every time you look at me  
You make me feel like I'm queen of the world  
You're so amazing it's insane  
Can't find a single thing  
I would even change if you were mine

But I don't wanna love you  
And I don't wanna care  
Cause if I go on and love you  
And you go - what then?

I could so get used to this  
--knowing what to expect  
You never leave me guessing how you feel  
You say "I Love You" every day  
"Thank You" is all I say  
'cause I'm afraid you're too good to be real

Don't wanna love you  
No I don't wanna care  
Cause if I go on and love you  
You'll go

What then?
