Youre everything that I could dream
Every time you look at me
make me feel like Im queen of the world
Youre so amazing its insane
Cant find a single thing
I would even change if you were mine

But I dont wanna love you
and I dont wanna care
Cause if I go on and love you
and you go - what then?

I could so get used to this
--knowing what to expect
You never leave me guessing how you feel
You say I Love You every day
Thank You is all I say
cause Im afraid youre too good to be real

Dont wanna love you
No I dont wanna care
Cause if I go on and love you
Youll go

What then?
